The Prague University of Economics and Business (**VŠE**) is the largest public university in the Czech Republic, offering education in business and economics. Around **14,000 students** are enrolled, and interest in studying here consistently exceeds the university's capacity. Teaching is provided by almost **1,100 members of academic staff** as well as a number of external staff from real businesses.

VŠE graduates **easily find jobs in the labour market** and hold important positions in both the private and public sectors. Some examples of

VŠE graduates include Czech presidents and prime ministers, governors of the Czech National Bank, directors of large organisations, and successful entrepreneurs. VŠE is organised into **six faculties**, offering a wide range of bachelor's, master's and doctoral degree programmes. A wide range of lifelong and corporate training courses is also available.

VŠE conducts **top-level research** in business, management, economics, international relations, informatics and more. VŠE researchers actively participate in Czech and international grant programmes such as Horizon Europe.

Thanks to their excellence, the faculties can offer educational, scientific and consulting services to businesses and the public sector. The honorary title

of Doctor Honoris Causa has been awarded to several prominent Czech and foreign economists, including Robert A. Mundell, Prof. Milton Friedman, Prof. Gary S. Becker, Prof. Douglass North, and Prof. Richard Thaler.

In 2015, the honorary title of Doctor Honoris Causa was awarded to the future Nobel Prize winner Prof. Richard Thaler.

Science and research

Science and research are a strategic priority for the Prague University of Economics and Business. The representation of a number of social sciences and exact sciences gives the school good conditions for the implementation of a wide range of scientific and research activities, in which all faculties participate.

An important starting point for improving and developing science and research is the **maximum support** for the scientific activities of young academics, doctoral students, and master's students. VŠE is involved in domestic and international grant projects, organizes major **international conferences** and contributes to the dissemination of scientific and research knowledge through its extensive publishing activities. It also publishes its own scientific journals, such as Politická ekonomie (Political Economy), Central European Business Review, and others.

Publications and scientific projects

Academic staff publish approximately 1,000 publications annually in the form of articles in journals, specialist books, research reports, methodologies, and conference contributions.

Publications include articles in the world's leading academic journals in relevant fields, such as Management Science, Journal of Management Studies, and Journal of Consumer Research. Scientific research teams work on more than **150** research projects annually. The main domestic providers are GAČR, TAČR, MŠMT, and other ministries, such as MV, MPSV, and MK. Researchers are also involved in international projects, such as **projects** such as projects obtained within the European programs Horizon 2020, Horizon Europe, COST projects, and others.

As part of its cooperation with companies, ministries, and other institutions, VŠE also carries out **contract research**, consultations, and advisory services. The main partners with which VŠE cooperates include ŠKODA AUTO, a.s., ORLEN Unipetrol RPA, Česká exportní banka, ČEPS, a.s., Nemocnice na Homolce, VALEO autoklimatizace k.s., Institut plánování a rozvoje hlavního města Prahy, ČNB, MPO, and APKURS. Among international institutions, VŠE researchers have worked on projects for the European Commission and the OECD.

Excellent research topics:

Work Environment

Behavioural and Experimental Economics

International Studies

Econometrics and Operations Research

International Economics

Sustainable Economics

Entrepreneurship

Regional Studies

Cognitive and Behavioural Aspects of Innovation Adoption

Health Policy and Economics

Family Business

Data Science & Artificial Intelligence

The vision of VŠE is to become a leading research organisation in the CEE region. The research work of VŠE produces innovative and useful solutions for the real world and is in line with the latest trends and technologies.

Faculty of Finance and Accounting

The faculty teaches applied subjects, combining general knowledge with specific practical procedures. Unemployment among graduates is practically zero. It also offers professionally oriented study programmes and courses taught in English. It has long-standing cooperation with industry and enjoys an excellent reputation on the job market. The faculty has also obtained a number of professional accreditations. An integral part of the study programme is a rich student life and events organized by student associations.

Faculty of International Relations

The faculty offers study programmes focused on international trade, diplomacy, tourism, and law. Students gain in-depth knowledge not only in economics and management but also master at least two foreign languages. Thanks to opportunities for study abroad and internships, as well as instruction led by experts from the field, graduates find employment in multinational companies, international institutions, and government agencies. Studying at the faculty is ideal for those who want to combine academic education with practical experience and become part of a strong student community in the heart of Europe.

Faculty of Business Administration

The Faculty of Business Administration is one of the most respected faculties focused on management in Central and Eastern Europe. It is the only faculty in the Czech Republic to boast the prestigious Triple Crown accreditation, which includes accreditation from AACSB (school-wide accreditation), EQUIS, and AMBA. The faculty's mission is to create and transfer knowledge, develop skills, and shape attitudes for the successful management of companies and organizations in a changing world. Emphasis on connecting teaching with practice is one of its main priorities. The faculty also offers an above-standard education and training programme designed for talented students called Honors Academia and Double Degree programmes in cooperation with foreign universities.

Faculty of Informatics and Statistics

The Faculty of Informatics and Statistics connects people, data, and business. Its brand-new study programmes focus on working with data, information, information technologies, quantitative approaches, artificial intelligence, statistics, and multimedia. It approaches all these areas from the perspective of meeting user needs and fulfilling the goals of companies and public organizations. Students who graduate from the faculty acquire very specific knowledge and skills and are highly valued on the job market. The faculty has over 2,800 students and more than 120 teachers.

Faculty of Economics

The Faculty of Economics offers prospective students the opportunity to obtain a university education in economics based on the teaching of traditional economic disciplines. The faculty's goal is to prepare not only highly qualified economists, but also economists who are oriented toward the real requirements of practice and the labour market. Therefore, the study programmes offered to students feature successful experts from the Czech Republic and abroad. Faculty teachers participate in international research projects evaluated within global parameters, for example in the field of regional studies, economic history, and other disciplines.

Faculty of Management

The Faculty of Management in Jindřichův Hradec is the only faculty of the Prague University of Economics and Business located outside of Prague. It offers education at all levels of university study in the field of management. At the faculty, it is possible to study both full-time and part-time. At the master's level, students choose one of the specializations and focus in more detail on business management, knowledge management, or marketing management. As one of the few schools in the Czech Republic, the Faculty of Management also offers a specialization focused on healthcare management. Students prepare for middle and senior management positions in organizations.

of Cooperation with the
TEREZA Educational Centre

Sustainability

The topic of sustainability is one of the strategic priorities of the Prague University of Economics and Business, and for many years now, individual faculties have also been actively involved in this area, particularly through their educational programmes and cooperation with industry.

In 2022, this topic was given significant central prominence through the **UNILEAD**, inter-university projects, which we followed up on in 2024 with the Sustainable Education and Environmental Development (SEED) project from the Green Deal call of the National Recovery Plan.

As part of this project, an ambitious **Sustainability Strategy** was created, in which VŠE sets out a clear vision and specific steps for achieving sustainability across a wide range of activities. From implementing sustainability principles in teaching and research, through innovations in university operations, to strengthening cooperation with the public and private sectors. We want to be an institution that sets an example and inspires others not only in the Czech Republic, but also on an international scale.

Strategic partnerships are also an important part of our activities. For example, VŠE has signed a memorandum of cooperation with the TEREZA educational centre, with which it implements the prestigious **EcoCampus program** focused on robust environmental management with the help of university students and staff. VŠE has also entered into another inspiring partnership with the **Business Leaders Forum**, with which it cooperates on the Lean-In Talent development programme, which is designed for female students. This cooperation also allows students to shadow sustainability managers in practice, for example.

At the beginning of 2025, the **VŠE Eco Team**, was founded, whose main goal is to help implement the Sustainability Strategy, support environmental initiatives, participate in the **EcoCampus** program, and achieve the prestigious international Green Flag award. The team quickly gained a large number of members from among students and teachers and actively set to work.

Cooperation with businesses

Cooperation with businesses is an integral part of economic education. VŠE seeks to give students the opportunity to gain **practical experience** during their studies and to introduce them to potential future employers through the university. Many students work on their master's and doctoral theses in specific companies and public administration institutions. Company representatives sit on the Board of Trustees and the scientific boards of VŠE and its faculties, and often teach as well.

Innovation Week

Innovation Week gives students, staff and alumni the chance to experience modern teaching methods, apply academic knowledge to real-life situations and hone their skills through inspiring activities such as **workshops**, trips, hackathons and expert debates. The week reflects our strategic priorities: innovative and practical education, modernising teaching, an **open campus** and active involvement in the public sphere. This initiative enriches the teaching process and contributes to creating a dynamic and attractive study environment at VŠE.

Partnership Centre

The Partnership Centre facilitates the establishment of partnerships between the Prague University of Economics and Business and **co-operating companies**, offering

them a unique opportunity to contribute to teaching or research at VŠE. Through a variety of activities, companies can contribute to the university's development while strengthening their **employer brand**, including through recruitment activities.

Specific cooperation opportunities are the following:

- » participation in teaching
- » HR activities
- » workshops and events
- » training courses
- » supporting science and research
- » sponsorship and participation in major events

Lifelong learning

Lifelong learning programmes at VŠE offer a wide range of courses focused on **professional development** and practical skills for individuals and companies. The programmes cover a variety of areas, including finance, HR, sustainability management, data analytics, and selected international business matters. These reflect current trends and **market needs**. Lifelong learning courses are available in many formats: From short, specialised courses to comprehensive training programmes for the public and professionals.

xPORT

xPORT VŠE is a **business incubator** that has been helping students and companies start businesses and acquire their first customers at minimum cost for 10 years. It primarily covers B2B SaaS projects, but can also assist in other areas. The business incubator operates at the intersection of business consultants, a marketing agency, and software developers. First, it shows the right direction, then advises how to proceed. When needed, work begins alongside its **start-ups**. xPORT also organises workshops and events to help participating projects gain key information for business development. Last but not least, it provides a modern workspace with a vibrant community of young innovators. The incubator organises the successful Startup Festival for students every year.

Student associations

VŠE values its active students and therefore supports student clubs and their activities as an integral part of university life. VŠE has a programme called "Student Associations with VŠE", which associations can join to gain many benefits.

The most significant benefits include the opportunity to :

- » Organise **social events** on VŠE premises
- » Book rooms and other facilities **free of charge**
- » Receive support from the VŠE Marketing and PR Department in **promoting** events
- » Use two **coworking** rooms at VŠE
- » Receive **financial support** from the Rector's Grant and Česká spořitelna, a. s., to organise student events and support other activities

Dance courses
for students

Student associations organise conferences, **expert** lectures, seminars and workshops, panel discussions and debates with interesting guests, produce podcasts and organise excursions. In addition to professional events, student associations also organise various **networking** events, competitions and quizzes, events of an artistic, cultural and social nature (art, music and dance workshops, exhibitions, etc.), **sports** activities and sports-oriented events and tournaments for enthusiastic amateur athletes.

The associations further organise **charity** events, such as a charity run for the Open Windows organisation, a charity bazaar in support of the Cystic Fibrosis Club and a Christmas fundraiser for a children's home. Events organised by **student associations** are intended not only for the association members, but also for other VŠE students, academics and VŠE employees as well as for the general public. Student associations also initiate joint events, e.g. VŠE fest, SWAP of clothes and books, Christmas for All, and actively participate in events organised by VŠE, e.g. Open Day, Chance Job Fair and Meeting Points (Seznamováky).

There are currently **40** student associations registered in the Student Associations Programme at VŠE, covering different topics

- » **International cooperation, support for international students:** ESN VŠE Prague, AEGEE-Praha, AIESEC Praha, CEMS Club Prague, Communitas Bohemica – VŠE, Generation for Unity
- » **Tourism:** CUFR, Travellers Club
- » **Diplomacy, trade, foreign relations:** Junior Diplomat Initiative, Student Club for Business and Competitiveness, Model United Nations Prague
- » **Entrepreneurship and corporate practice:** Young Logistics Club, Young Managers Club, Co-working, Consulting Club 307
- » **Economics, finance, banking, investing:** Financial and Banking Association FinBank, Taxpayers Club, Investors Club, Friends of Accounting Club, Prague Banking Club VŠE, Economic Networks
- » **Economic and political developments:** Young Political Scientists Club, Econse
- » **Sustainability:** oikos
- » **Art, culture, social life:** All Arts Club, Faculty Cultural Society, Alfa Phi, Students for VŠE
- » **Sports activities:** HC VŠE Prague, Sporták FM, Student Diving Club Nautilus VŠE Prague, Football and Futsal Club VŠE
- » **Development of student activities and extracurricular activities:** 4FIS, Events4Students, Chess Club VŠE, VŠE Connect&Events, Studujeme FPH
- » **Support for PhD students:** FiShD
- » **Conversation in a foreign language:** FRAC – French Club
- » **Editorial work:** iList

VŠE alumni

The VŠE Alumni Centre fosters long-term relationships between the university and its alumni. Its main goal is to build an active alumni **community** through **networking** and educational events. The centre's activities include **Graduation Wednesdays**, a regular series of lectures and discussions covering inspiring topics from various areas of business, economics and personal development.

Alumni can also meet at events such as VŠE Alumni Bowling, the Alumni Pub Quiz and the ALL Golf Tour. The Alumni Centre also organises alumni meetings and promotes links between alumni and the university, keeping them informed about **current events at VŠE**.

Further information about the VŠE Alumni Centre and its activities can be found at **alumni.vse.cz**.

Services for students

VŠE provides its students with high-quality facilities and good study and leisure conditions. These include a university library, study rooms, computer and language classrooms. There are also canteens and a number of other catering facilities, as well as a gymnasium and a gym on the campus. VŠE also has its own state-of-the-art mixed-use sports hall in Třebešín.

» **Academic psychological counselling**

» **Centre for Students with Special Needs**

» **Accommodation**

» **Career Centre**

» **VŠE Library**

» **Centre for Physical Education and Sport**

Academic Psychological Counselling

The Academic Psychological Counselling Centre of VŠE provides **psychological counselling**, coaching and psychological diagnostics for students, staff and alumni. The Centre helps with solving academic, personal and professional challenges, **managing stress** and developing self-confidence and effective communication skills. Activities include individual **consultations**, group workshops and seminars focused on **mental wellbeing**, burnout prevention and soft skills development. The counselling centre helps students to overcome study-related challenges and improves the working environment at VŠE.

Centre for Students with Special Needs

The Centre for Students with Special Needs at VŠE offers **support** to students with visual, hearing and mobility impairments; learning, autism spectrum and concentration disorders; and mental and chronic illnesses. The Centre ensures that **adjustments to studies are made** so that students can study in an integrated way, while respecting the individual impact of disadvantage on learning. Study adaptations are chosen so as not to reduce the study requirements. The Centre guarantees students with specific needs technical assistance services of the required quality and extent. VŠE premises are **wheelchair accessible**, and wheelchair-accessible accommodation is available in all dormitories.

accommodation.vse.cz

VŠE dormitories

The VŠE dormitories are located in three districts of Prague: Prague 3 (Žižkov), Prague 4 (Jižní Město) and Prague 7 (Holešovice). They have a total capacity of **3,800 beds**

in various categories and price ranges. Most of the accommodation consists of two or three rooms sharing a bathroom and kitchen. VŠE dormitories also offer double rooms with a private bathroom and kitchenette. Some of these rooms are designed for couples. Each dormitory building has laundry rooms, study rooms and common rooms. There is also an extensive **sports complex** on the Jarov campus with football, basketball and volleyball courts, a tennis court and an outdoor gym.

Students can also make use of the barbecue areas and bike sheds. All services can be booked online via the accommodation system website. Wi-Fi and high-speed cable internet are standard.

Students apply for accommodation **online**, and the entire process, from application to moving in, is handled online. All information about the dormitories, how to apply for accommodation and moving in is available at suz.vse.cz and is easy to read.

VŠE Career Centre

The VŠE Career Centre helps students and graduates to find their way around the **labour market** and develop their professional and personal skills. It provides personalised career counselling,

organises career workshops and mediates current job offers, among other services. The Centre is best known for organising the **ŠANCE** Job Fair, which is attended by over 100 different businesses and organisations. Further information is available at kc.vse.cz.

VŠE Library

The library offers a range of facilities, including a **central library**, a study room and the Idea Fair **coworking space**, all of which are located on the Žižkov campus. There is also a small study room

available in Jižní Město. In addition to printed books and journals, **e-resources** are available, ranging from hundreds of thousands of e-books to tens of thousands of professional journal titles, as well as market and company data and legislative databases. The library organises regular free online seminars focusing on citation, the **effective use of** e-resources, specific areas (e.g. company data) and skills (e.g. literature review). The VŠE Library is an active member of the Association of University Libraries of the Czech Republic and the prestigious European Business School Librarians' Group, which comprises the libraries of major European business schools.

Centre for Physical Education and Sport

The Centre for Physical Education and Sport offers teaching and recreational sports programmes, as well as summer and winter **sports courses** in the Czech Republic and abroad. Students can choose from **28** sports specialisations and participate in up to **20** hours of specialist tuition per day. As well as traditional sports such as basketball, volleyball, football, floorball, tennis and weightlifting, it is also possible to study self-defence, canoeing, fencing, Thai boxing, archery and diving. The Centre offers specialised health courses in physical education and swimming for students with various health limitations. Competitive students can participate in national and international academic sports **competitions** and represent VŠE.
